SUMMARY

Holding a Bachelor's degree in Mathematics from AGH, I am now advancing my education as a Master's student in Informatics-Data Science at the same university. I am looking for a position where I can apply my mathematical expertise and programming skills. As a detail-oriented problem solver, I am dedicated to delivering accurate and insightful solutions that contribute to effective decision-making. With a proven ability to learn quickly and thrive in challenging environments, I am eager to leverage both my academic background and career experience in a professional setting.

EXPERIENCE

Intern in Alternatives Accounting, 10/2023 - Current
Brown Brothers Harriman - Cracow, Poland

- Utilizing eFront's SQL functionalities for accurate financial accounting and management, ensuring data integrity and security in handling sensitive financial information.
- Applying analytical skills to interpret financial data, generating reports, and insights that support decision-making processes within the Finance Department.
- Leveraging the internship to deepen knowledge of financial systems and databases, gaining practical experience in applying IT solutions to finance.
- Participated in specialized training sessions on Oracle EPM and FDMEE, acquiring skills in advanced financial data integration, management, and analysis.

Intern, 05/2022 - 06/2023
RetencjaPL Sp. z o. o. - Cracow, Poland

- Improved hands-on experience in data analysis and visualization of collected data in MS Excel.
- Gained useful knowledge about working with databases in the GIS enviroment.
- Collaborated with management and team members on end-to-end project needs, organising materials, facilitating communication and proofreading work.

EDUCATION

Master of Science: Informatics - Data Science, 2025
AGH University of Science and Technology - Cracow
Area of interest: Data analysis languages and libraries (Python), Fundamentals of Databases (SQL), Object Oriented Programming (Java).

Bachelor of Science: Mathematics, 2023
AGH University of Science and Technology - Cracow
Area of interest: programming in C++, probability theory, portfolio theory and risk management, financial management.
